

Sabrina is a machine especially designed to clean little surfaces of carpet and hard floor. Notwithstanding its little size, Sabrina is suitable for professional use, and it is also indicated for hard-work, such as rental use or use by cleaning companies. Its **high-waterlift** vacuum system allows to recover the maximum quantity of dirt from carpet and to get a shortest drying time. Equipped with the optional rotating brush wand NS270BRUSH, Sabrina allows to get excellent cleaning results.

Sabrina is supplied with the wand for carpet and hard floor NS270N. The hand tool for cleaning upholstery and inside of cars NS10PN is optional. Moreover, with the optional accessory NS270TURBODUST Sabrina works as a vacuum cleaner as well. Thanks to the filter inside the accessory, there is no need to make any change to the machine in order to switch its function.

Main application fields: cleaning companies, hotels, restaurant, clubs, pubs, offices, banks, shops, rental companies, private houses, carpet shops, ferry boats, ships, fitness centres, schools, universities, places of worship, mosques.

Injection-extraction cleaning

carpet cleaning

hard floor cleaning

Waterlift

Drying time

Residual dirt

Advantages of Sabrina:

1. **High-waterlift** technology allows incomparable dirt removal and shortest drying time: carpet can be dry in 1 hour!
2. The **size** of the machine is small compared to its tank capacity. The machine is easy to carry even in a small car.
3. With a single machine it is possible to clean both **carpet and hard floor**, with the same tool. The commutation from carpet to hard floor cleaning and vice versa is done easily, simply turning a lever.
4. **S-shaped tool**, which allows to clean easily under tables and desks.
5. Vacuum head in die-cast aluminium, practically **indestructible**.
6. **Special profile** of the vacuum head, which allows a shorter drying time.
7. Plastic and rubber **handles**, which avoid the cooling of the worker's hands.
8. The height of the handle is **adjustable**, for greater ergonomics. The handle allows the worker to lift the tool and to press the vacuum head down on carpet with a very small effort.
9. **Spraying valve** designed for avoiding any breaking.
10. Tubes in **stainless steel**, strong and rustproof for the whole machine life.
11. **Quick disconnect** spray nozzle, which can be removed by hand without using any tool. The nozzle can be cleaned easily.
12. With the optional vacuum tool **NS270TURBODUST**, it is possible to vacuum dust before cleaning, with the same machine.

Other technical advantages of Sabrina:

1. High density polyethylene tanks, very strong and made for lasting a long time.
2. Transparent unbreakable cover, which allows to see the dirty water while it is sucked.
3. Recovery tank with integrated handle. The tank can be easily detached from the machine body, in order to make the tank emptying and cleaning easier.
4. The filter of the vacuum motor is easily removable for cleaning.
5. The gaskets are replaceable by hand since they are not glued. Easy to clean and change.
6. Strong wheels, in antimark rubber.
7. Brass quick-disconnect couplings, reliable and strong.
8. Water pump with bypass, which allows an automatic regulation of the optimal water flow according to the tool used. Moreover, the bypass device makes the pump more reliable and avoids problems in the years.
9. Pump built on Santoemma specifications, for a longer life.
10. Vacuum motor with thermal protection against overload.
11. Vacuum motor treated against rust.
12. Both motor and pump can work continuously.
13. Modular design that makes the maintenance easier. The maintenance of the machine can be done at low costs.

Technical Data

Approximate performance (basic machine)*:	25-45 m²/h
Approximate performance (professional SET)*:	50-100 m²/h
Recovery tank capacity:	14 liters
Solution tank capacity:	14 liters
Vacuum motor:	Two stages - High Waterlift
Power:	1500 W
Maximum waterlift:	3000 mm H ₂ O
Maximum air-flow:	45 l/sec.
Pump with by-pass:	vibrating
Power:	70 W
Maximum pressure:	4 bar
Maximum water-flow:	1,5 l/min
Cleaning width:	270/290 mm
Number of nozzles:	1
Cable length:	10 m
Hose length:	2,5 m
Weight (machine body):	12 kg
Weight (packaged machine):	15 Kg
Dimensions:	30 x 42 x 53 cm
Package dimensions:	34 x 53 x 70 cm
Standard colors:	Blue
Tank construction:	High density polyethylene

*The effective performance depends on the type of cleaning required: restorative deep cleaning - maintenance cleaning.

Complete machine for carpet and hard floor cleaning + hoses H10-M + wand NS270N-M for carpet and hard floor cleaning	€
---	---

Suggested optional tools (see also Sabrina PROFESSIONAL SET)

	NS270TURBODUST	Complete accessory with internal bag for vacuuming before cleaning, Ø 32/38	€
	NS10PN-M	Plastic hand tool, with 1 spray nozzle.	€
	NS270BRUSH	Special wand, 270mm wide, with a cylindrical rotating brush, to be used for cleaning carpet in combination with an injection-extraction machine	€
	9022	Hose for filling up the clean water tank easily. It can be used to connect the water tap to the machine tank, without spilling water.	€
	HERMES-M	Tool which allows to wash and dry walls and windows. The solution is injected by 2 nozzles, which are inside the vacuum head, so that it is possible to clean a vertical surface without water dropping on the floor. Hermes is supplied with a brush slide and a rubber slide, to clean rough or smooth surfaces.	€
	NS270P-M	This tool works with the same principle of Hermes. Its two extensions allow to wash and dry hard floors, high walls and even ceilings.	€
	ST810	Three speed air blower, high performance, 1 Hp, 230V – 50Hz, for quick drying of carpet after cleaning. Equipped with wheels and extensible handle, easy to transport. Stackable.	€

sqm/h

Sabrina with hoses and wand NS270N-M

Power brush tool NS270BRUSH

Hand tool NS10PN-M

Rotating brush vacuuming tool NS270TURBODUST

Sabrina PROFESSIONAL SET includes:

- Machine body and hoses H10-M
- the wand NS270N-M
- the power brush tool NS270BRUSH, for injection-extraction cleaning with rotating brush
- the transparent plastic hand-tool NS10PN-M, for cleaning upholstery and hard-to-reach spots
- the rotating brush tool NS270TURBODUST, for vacuuming carpet before cleaning

Advantages with Sabrina PROFESSIONAL SET:

1. The mechanical brushing action gives an excellent cleaning result, removing dirt completely from the base of carpet fibres. No residual dirt will re-emerge on carpet surface after few days!
2. Even a very dirty carpet can be completely clean in a single pass, reducing the time of cleaning operations.
3. Being able to clean in single pass, the amount of solution sprayed on carpet is not excessive and can be completely recovered by the machine's high-waterlift vacuum system. As a result, carpet can be completely dry in one hour!

Complete **Sabrina Professional set**, including:

machine body, hoses **H10-M**, carpet tool **NS270N-M**, hand tool **NS10PN-M**,

power brush injection-extraction tool **NS270BRUSH**, rotating-brush vacuuming tool **NS270TURBODUST**
