

Eveline-Battery is the Santoemma patented system for complete cleaning and sanitizing of 100-200 square meters furnished places, with areas of different type: restrooms, working areas, offices, walkways, store-rooms, changing rooms, kitchens, café and restoration areas. Eveline-Battery allows to perfectly clean and sanitize vertical surfaces, sanitary fixtures and hard floor. Without power cord, the operator can work fast and easily. The battery charger is on-board for an easy charging.

Phases of Eveline-Battery cleaning and sanitizing system :

1. **Spraying** of chemical solution on all the surfaces (walls, sanitary fixtures, hard floor)
2. **Chemical action** against dirt and bacteria (30 seconds are enough)
3. **Rinsing** with clean water, to remove dirt and bacteria from the vertical surfaces
4. **Vacuuming** of residual liquid from floors.

1. SPRAYING

2. CHEMICAL ACTION

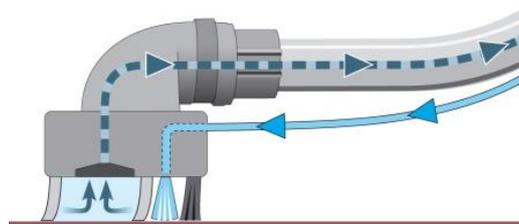

3. RINSING

4. VACUUMING

The **spray gun** allows to spray concentrated chemical solution and to rinse vertical surfaces, walls and sanitary fixtures. The **special wand** supplied allows to clean hard floor with the injection-extraction system. A dedicated bristle, located on the vacuum head, allows to brush effectively very dirty hard floors. The dirt detached from the floor is **completely removed** thanks to powerful vacuuming and is collected in the recovery tank.

To clean hard floors it is possible to spray and vacuum simultaneously, or to spray, brush and then vacuum afterwards. In both cases hard floors are left perfectly dry in few seconds and without effort.

Eveline-Battery really **removes the dirt** from walls and hard floor without leaving any residual dirt on the surfaces and **represents today the ideal solution, replacing manual equipment** which move dirt and bacteria from place to place.

Eveline-Battery makes the job effective, quick, pleasant. The areas are completely **cleaned, sanitized, dried and perfumed**. Small and light, Eveline-Battery can be easily carried from place to place and stored after use.

Eveline-Battery is the optimal solution for any 100-200 square meters furnished areas, such as for example: restaurants, holiday farms, fast-food outlets, pubs, discotheques, petrol stations, offices, factories, private companies, shops, shopping centers, cinemas, theatres, hospitals, nursing homes, kindergartens, schools, universities, ferries, cruise ships, airports, fitness centers, swimming pools, saunas, spa, hotels, pastry shops, bakeries, supermarkets.

Advantages of Eveline-Battery:

1. **Complete cleaning and sanitizing.** The chemical solution sprayed acts on all the surfaces, ensuring both cleaning and sanitizing also in corners not easily reachable with manual tools. Laboratory tests certify that Eveline-Battery eliminates **99.9% of bacteria**.
2. **Greatest hygienic safety for the operator**, who does not come in touch with the objects and the surfaces to be cleaned.
3. **Reduced labour for the operator.** Manual work is reduced to a minimum, since the dirt is removed by the solution chemical action and the following rinsing and vacuuming.
4. **Ease of use.** Using the machine is very simple and does not require any training for the operator.
5. **Saving of time.** Any place can be completely cleaned, sanitized and dried in less than one third of the time required with manual tools.
6. **Saving of chemical.** Chemical is used without wastage because it is automatically dosed by the machine in an optimal quantity.
7. **Easy use everywhere.** Without a power-cord, the operator can work fast and easily everywhere.

Technical data and performance

Recovery tank capacity:	14 litres
Clean water tank capacity:	14 litres
Approximate performances and consumption (50 sq. meters of hard-floor):	Time: 10 minutes Chemical consumption: 200 gr Water consumption: 14 litres
Tank construction:	High density polyethylene
Vacuum motor:	2 stages
Power:	500 W
Maximum waterlift:	1300 mm H ₂ O
Maximum air-flow:	45 l/sec.
Pump with bypass:	Membrane
Power:	40 W
Maximum pressure:	2,8 bar
Maximum water-flow:	3 l/min
Weight (machine body):	41 Kg
Weight (packaged machine):	48 Kg
Dimensions:	cm 30 x 74 x 94 (h)
Package dimensions:	cm 42 x 65 x 89 (h)
Spray hose/Vacuum hose length:	3/3 m
Standard colors:	blue
Batteries:	2 x 12V - 20Ah
Battery charger:	On board – 4A
Standard tools supplied with the machine:	Spray hose, vacuum hose, spray/rinse gun, Wand for hard-floor vacuuming and injection-extraction cleaning

Complete machine with spray hose, vacuum hose, wand for hard-floor injection-extraction cleaning, 1 bottle of cleaning and sanitizing chemical SANI-CLEAN-1. Batteries and battery charger included.	€
---	---

Chemicals

SANI-CLEAN-1	Cleaning and sanitizing chemical, 1 liter bottle	€
ACID-CLEAN-1	Acid chemical, 1 liter bottle	€
SUPER-CLEAN-1	Strong degreasing chemical, 1 liter bottle	€
T-CLEAN-1	Non-foaming chemical specific for textiles, 1 liter bottle	€

Optional accessories

With optional accessories, Eveline-Battery can clean carpet, rugs, upholstery and inside of cars, with the injection-extraction system.

NS10PN-M	Transparent plastic hand tool, for upholstery cleaning	€
NS270N-M	Wand for carpet and hard-floor cleaning, with aluminium head	€
HERMES-M	Wall and window cleaning tool, with 2 internal spray nozzles	€
