

HEPA PRO 6EB

Introducing a genuine HEPA vacuum that can be worn comfortably as a backpack. The HEPAPro 6EB offers 6-quart recovery capacity and the ultimate in HEPA filtration and clean-air technology. Don't be misguided by competitive backpack vacuums claiming to have HEPA filtration. This backpack is a genuine "HEPA Vacuum" so it has a HEPA filter that is individually tested and certified at a minimum efficiency of 99.97% at .3 microns. In addition, the HEPA filter, secondary cloth pre-filter and disposable paper filter bag are all drop-in, modular components on the intake side of the motor. This is your "fail-safe" guarantee to prevent any accidental bypass of dangerous dust that may escape from the vacuum and contaminate the air. The model HEPAPro 6EB is approved for EPA RRP regulations for removal of lead based paint particles. It also meets OSHA requirements for reducing permissible levels of crystalline silica on construction and restoration jobsites. It is also ideal for advanced cleaning in schools, hospitals and other public areas.

FEATURES:

- Two-stage, 1.7HP, Ametek motor with thermal protection provides powerful suction and guards against overheating.
- Four-stage filtration including individually tested and certified HEPA filter prevents premature clogging and ensures clean air exhaust.
- Padded harness with handle allows for free arm movement, enhancing cleaning performance while minimizing stress to the operator's body.
- Lightweight, polyethylene body resists impacts and withstands years of professional use.

TECHNICAL SPECIFICATIONS:

Item Number:	125-1255-20	Construction:	Blow-molded polyethylene body, padded nylon harness.
Vacuum Motor:	1200 watt/10A air-thru design, with internal thermal protection	On/Off Switch:	Hip mounted, cord switch box assembly
Suction/Airflow:	100" waterlift, 104 CFM	Height:	22"
Noise Level:	60 decibels	Machine Weight:	10 lbs.
Filtration:	4-stage including HEPA filter, drop-in cloth bag, six quart two-ply disposable paper filter bag (item #122-3214-14)	Shipping Weight:	19 lbs.
Bag Capacity:	6 quart	Warranty:	1 year

TOOL KIT:

122-3012-14	Crushproof Hose 5'x 1.5" Dia
122-3025-14-1	Alum Wand 5' Double Bend 2-Piece 1.5" Dia
122-3030-14	Round Dusting Brush 1.5" Dia
122-3044-14	Multi-Surface Floor Tool 14" x 1.5"
122-3060-14	Crevice Tool 17" x 1.5" Dia
122-3070-14	Upholstery Tool 1.5" Dia

HEPA PRO 6EB

On-Off Switch: Hip mounted for easy access.

TESTED & CERTIFIED HEPA FILTER:

The HEPA Pro 6EB is equipped with a "Fail-Safe" HEPA filter system that protects against discharge or bypass of dangerous dust particles from the vacuum cleaner. This modular, drop-in and removable HEPA filter, cloth pre-filter and disposable paper bag, all seal together tightly under suction. There is zero risk of the operator incorrectly installing the HEPA filter and accidentally causing bypass, thus contaminating the air with dangerous particles. Also, in the event of a failure, by rupture or the like, of the cloth filter bag or disposable paper bag, the HEPA filter is the final filter and certified to trap any particles before they can be released into the air.

Disposable Paper Bag:
Part # 122-3226-14

Cloth Bag:
Part # 122-3229-14

HEPA Filter:
Part # 127-3320-14

The HEPA filter is individually tested and certified to be 99.97% efficient at .3 microns according to IEST-RP-CC001 test requirement.
